

**Brainy
Baby**
...a little genius in the making.™

Because
no parent asks,
"Got anything
that'll make my
kid dumber?"

Your child's education begins at birth. That's why the Brainy Baby® video series was created, to give your child a jump-start on learning. Brainy Baby® became the first company to pioneer infant educational videos with the 1996 development and release of the dual titles, *Brainy Baby Left Brain* and *Brainy Baby Right Brain*. Every Brainy Baby® video features 45 minutes of solid educational content. Captivating real-life images and inspiring music will both entertain and educate your child.

Brainy Baby® is excited to announce the extension of the Brainy Baby Learning Library™ to include toys, books and games. To learn more about these products, go to www.brainybaby.com

Start your child's education with a solid foundation. Start with Brainy Baby.®
